*"Practice Limited to Pediatrics"*

**ACCIDENTS ARE THE LEADING CAUSE OF DEATH IN CHILDREN UNDER FIVE**

**Safety For The Toddler**

If your toddler can climb out of his crib, move him to a low bed to prevent falls.

Always use an approved car seat properly installed.

**NEVER** leave a child unattended in the care or near **ANY** water.

Keep plastic bags and balloons away from children because of the chance of suffocation.

Wear bicycle helmets whenever bicycles are used.

When getting in and out of the care in a mall parking lot, remind your child that this is a street and have them hold your hand.
